KIMTECH

POWERING SCIENCE

with Kimtech™ Cleanroom Gloves

WHY KIMTECH ?

Kimberly-Clark Professional and the Kimtech™ Brand have been trusted partners to labs, cleanrooms and research facilities for more than 60 years. Because when you work in a challenging environment with no margin for error, you need solutions that protect people and processes from contamination risk. We are also leaders in sustainability. In 2011, we created The RightCycle™ Programme, the first large-scale recycling programme for diverting non-hazardous PPE waste. When you choose Kimberly-Clark Professional™, you're choosing a partner who not only values your business and customers, but also the world we share.

For the challenges you face and the standards you need to meet, there is no better choice - Kimtech™: PROTECTING YOU. POWERING SCIENCE.

PROTECT THE PROCESS

Kimtech™ Cleanroom gloves can drive cGMP compliance by reducing contamination risk.

- Packaged in state-of-the-art ISO 5 Cleanrooms
- Low Particle & Endotoxin^[1] levels
- ▶ Validated Sterility Assurance Level of 10-6
- Non detectable levels of Silicone, Phthalates and DOP

PROTECT THE OPERATOR

Kimtech™ Cleanroom gloves are specifically designed to protect operators from Chemical Splash and Micro-Organism Hazards.

- > EN ISO 374-1 Chemical splash protection certification
- EN 374-4 Resistance to degradation by chemicals certification
- ▶ EN ISO 374-5 Micro-Organism and virus protection certification
- Non detectable level of chemical accelerators to minimise risk of skin irritation

ASSURED COMPLIANCE

Kimberly-Clark Professional™ makes it easy to demonstrate compliance with cleanroom gloves.

- ▶ PPE Category III according to the Regulation (EU) 2016/425 and to the Regulation 2016/425 as brought into the UK law and amended
- Manufacturing site ISO 9001 and/or ISO 13485 certified
- Certificates of Analysis (CoA) and Certificates of Irradiation (CoI)^[2] available for every production lot
- Our website www.kimtech.eu is a rich source of online documents, including Technical Data Sheets, Declaration of Conformity, Certificates of Analysis and Certificates of Irradiation

^[1] Endotoxin level available for cleanroom sterile gloves only

⁽²⁾Certificate of Irradiation available for cleanroom sterile gloves only

What is

The RightCycle Programme by Kimberly-Clark Professional™?

Sustainability matters to you and to us. That's why we created The RightCycle[™] Programme, the first large-scale recycling programme for nonhazardous lab. cleanroom and industrial waste. Since 2011, we've helped hundreds of customers divert more than over 2000 tons of waste. We can do the same for you by turning your used singleuse apparel and gloves into patio furniture and other useful products.

At Kimberly-Clark Professional™, we're always working to reduce the environmental impact of our products. Reducing our dependence on the world's natural resources leaves more for the future, for our children, for the planet and for our businesses. We strive to help customers like you reach your zero waste-to-landfill goals. The RightCycle™ Programme is part of this commitment and one very important way for us to work together, one ton of waste at a time.

In EMEA, the programme is available in the UK, Ireland, France, Spain, Germany, Austria, Belgium, Netherlands and Switzerland.

Giving nonhazardous, singleuse apparel and gloves a new life.

"For me, the biggest appeal about The RightCycle™ Programme is that it's the start of an EPR, an Extended Producer Responsibility, for a material that we don't often think about. Gloves are a high-volume, fast-moving commodity used by almost every industry. Once people start getting good at recycling primary commodities, such as paper and plastic, we're going to have to move to secondary commodities. Gloves bring you to that next level."

— Shantanu Pai Assistant Sustainability Researcher, Illinois Sustainable Technology Center (ISTC)

Used products are collected and shipped to our recycling centers. Used products are sorted and processed

Materials are molded into new plastic products and durable goods.

For more information, visit: https://www.kimtech.eu/rightcycle

Kimtech™ G3 Sterile White Nitrile Gloves

- > Suitable for EU GMP ISO Class 5 / Grade A sterile cleanroom
- **)** Low levels of particles (max 950 >0,5μm/cm²) and endotoxins
- Hand specific, length 30.5cm
- Individually pair packed, double bagged and placed into case liners
- > Textured fingertips for enhanced grip
- Available in a wide range of sizes 6.0-10.0

KimtechTM G3 Sterile White Nitrile Gloves provide enhanced levels of contamination control and cleanliness. Excellent comfort and tactile control to ensure processes are safe and efficient. Protects against chemical splash, viruses and micro-organism contamination. Featuring textured fingertips for improved grip and sensitivity while being suitable for double donning. Validated to a Sterility Assurance Level (SAL) of 10⁻⁶, cleanliness level of a maximum of 950 particles >0.5μm/cm² and endotoxin level of 20 units/pair maximum. Gloves are provided cleanroom-ready: individually pair packed, double bagged and placed into case liners.

Assured Compliance:

- PPE Cat III according to Regulation (EU) 2016/425 and to the Regulation 2016/425 as brought in the UK law and amended
- EN ISO 374-1 Type B (KPT) Chemical Splash protection
- EN 374-4 Resistance to degradation by chemicals
- EN ISO 374-5 Micro Organism and Virus Protection
- Sterility Assurance Level (SAL) 10⁻⁶
- Certificate of Analysis (CoA) and Certificate of Irradiation (CoI) available online for each production lot

Freedom from Pinhole trend data for Kimtech™ G3 Sterile White Nitrile Gloves. January 2023 - November 2023

Kimtech™ G3 Sterile Sterling™ Nitrile Gloves

- > Suitable for EU GMP ISO Class 5 / Grade A sterile cleanroom
- ➤ Low levels of particles (max 1200 >0,5µm/cm²) and endotoxins
- Hand specific, length 30.5cm
- Individually pair packed, double bagged and placed into case liners
- > Textured fingertips for enhanced grip
- Available in a wide range of sizes 6.0-10.0

The Sterling™ nitrile technology reduces glove thickness and enhances strength without compromising safety and comfort. When double-donned, the Kimtech™ G3 Sterile Sterling™ Nitrile Gloves deliver a similar feel and dexterity compared to a single sterile latex glove. Eco-friendly packaging with 50% more gloves per case. Beaded cuffs for easy donning. Textured fingertips to enhance dexterity and sensitivity. High cleanliness level (1200 particles >0.5µm/cm²) and low endotoxin level (max 20 units/pair). Gloves are provided cleanroom ready: individually pair packed, double bagged and placed into case liners.

Assured Compliance:

- PPE Cat III according to Regulation (EU) 2016/425 and the Regulation 2016/425 as brought in the UK law and amended
- EN ISO 374-1 Type C Chemical Splash protection
- EN 374-4 Resistance to degradation by chemicals
- EN ISO 374-5 Micro Organism and Virus Protection
- Sterility Assurance Level (SAL) 10-6
- Certificate of Analysis (CoA) and Certificate of Irradiation (CoI) available online for each production lot

Kimtech™ G3 Latex Gloves

- Made of high quality latex material providing high levels of protection and comfort
- Low level of particle (max 1500 > 0,5µm/cm²) and extractable ions
- Ambidextrous with beaded cuffs
- Available in a range of sizes, from S to XL

Kimtech™ G3 Latex cleanroom gloves provide enhanced tactile sensitivity and performance. Washed with DI water to ensure consistent control of particles and extractables. High-quality finish for tactile sensitivity and comfort in both wet and dry conditions. Provided double-bagged in cleanroomcompatible polyethylene and case liner to be easily integrated into your processes.

Assured Compliance:

- PPE Cat III according to Regulation (EU) 2016/425 and the Regulation 2016/425 as brought in the UK law and amended
- EN ISO 374-1 Type C Chemical Splash protection
- EN 374-4 Resistance to degradation by chemicals
- EN ISO 374-5 Micro Organism and Virus Protection
- Certificate of Analysis (CoA) available online for each production lot

Kimtech™ G3 White & G3 NxT Nitrile Gloves

- Industry-leading cleanroom disposable nitrile gloves offering high level of protection, cleanliness and quality
- > ISO 3 cleanroom compatible
- Low level of particle (max 950 >0,5µm/cm²) and extractable ions
- Available in tacky or slick finishing
- Available in a wide range of sizes, from XS to XL

Kimtech™ G3 White and G3 NxT Nitrile gloves are ideal for handling delicate equipment in microelectronics, semiconductor, optics and non-sterile pharmaceutical applications. The high quality nitrile gloves deliver seamless protection when and where it is needed. The nitrile polymer material is designed for fit and reliability, with textured fingertips for improved grip and excellent water tightness with a low risk of pinholes. The gloves are ambidextrous and incorporate a beaded cuff for added strength and ease of donning. Powder and latex free to reduce the risk of Type 1 glove-associated reactions. During manufacture the gloves are washed repeatedly in ultrapure deionised water to ensure consistent control of particles and extractables. Provided double-bagged in cleanroom-compatible polyethylene and case liner to be easily integrated into your processes.

Assured Compliance:

LOOKING TO COMPLETE YOUR CLEANROOM EQUIPMENT?

Kimtech™ A5 Sterile Cleanroom Coverall

- Featuring CLEAN-DON™ Technology for simple, safe and efficient aseptic gowning
- > EU GMP ISO 5 Grade A sterile cleanrooms compatible
- Made from high performance low linting and breathable SMS fabric
- Vacuum packed and individually double bagged
- Available in a wide range of sizes S 4XL

The Kimtech™ A5 Sterile Cleanroom Apparel is designed for simple, safe and efficient sterile donning practices, protecting the process and the cleanroom operators. Made from high performance SMS (Spunbond / Meltblown / Spunbond) material which has a cloth-like feel to comfort the wearer and increase productivity. This low-lint fabric adheres to Helmke Drum test Category I and Sterility Assurance Level 10-6.

For a complete Head-To-Toe solution with innovative hood and overboots, please visit our website www.kimtech.eu.

Assured Compliance:

- PPE Cat III according to Regulation (EU) 2016/425 and the Regulation 2016/425 as brought in the UK law and amended
- Type 5 & 6 certified
- Certificate of Conformance (CoC) and Certificate of Irradiation (CoI) available online for each production lot

Kimtech™ A8 Coveralls

- Made of ultra-light breathable SMS antistatic treated
- Unhooded design with high neck collar
- > Suitable for ISO 7 & 8 / Grade C & D cleanrooms
- > Low lint fabric, Helmke Drum test Cat III

Kimtech™ A8 Coveralls are designed to enhance comfort and reduce heat stress in the laboratory or cleanroom. This low-lint fabric is anti-static treated and adheres to Helmke Drum test Category III. The unhooded coverall design includes a high collar, for added neck protection, and built-in thumb loops for wrist coverage that reduces skin exposure.

Assured Compliance:

- PPE Cat III according to Regulation (EU) 2016/425
- Type 6 limited chemical splash protection
- Type 5 particle protection
- EN1149-5:2018 antistatic clothing^[8]
